

EFFECTIVE JULY 20

VISITOR INFORMATION

Your health and well-being are our highest priorities. At Virtua, we are following Centers for Disease Control and Prevention (CDC) and New Jersey Department of Health guidelines to reduce the spread of COVID-19. We take infection prevention very seriously and have taken extra precautions to help ensure Virtua is doing everything we can to minimize any risk to our patients, staff, and visitors.

- ▶ Visitors will perform hand hygiene and complete a screening tool for COVID-19 symptoms upon arrival at our facilities.
- ▶ Visitors will have their temperature taken. If your temperature is greater than 100.0 F, or you are showing other symptoms relating to COVID-19, we will ask you to leave and return after you are fever and symptom free for 72 hours.
- ▶ Visitors may only go directly to the patient's room. We are not allowing visitors in our cafeterias.
- ▶ Visitors may be asked to step inside a designated waiting area when the patient they are visiting is receiving treatment.
- ▶ Our staff performs hand hygiene before and after each patient interaction.
- ▶ We frequently clean and disinfect waiting areas and high touch areas using products that are effective against a range of organisms and viruses, including COVID-19.
- ▶ We require universal masking for our staff and we require visitors to wear a face mask while in our facilities.

PROPER DONNING OF FACEMASK
