5. On the following screen, answer three of your security questions and click OK to proceed.

✓ You've successfully completed your registration with Entrust IdentityGuard Self-Service!

Self-Administration

Only continue if you recognize your chosen personal image:

Challenge

Please answer the following questions.

What is your favorite animal?

As a child, what did you want to be when you grew up?

What street did your best friend in high school live on?

🔗 I can't answer this type of challenge right now. Please let me answer a [one-time password challenge](#).

6. Click *I'd like to request a soft token*.

Self-Administration Actions

Please select one of the actions below or click Done if you're finished:

- [I'd like to request a soft token.](#)

7. Click Yes for a soft token.

 Please confirm the following

Do you want to get a soft token for second factor authentication?

8. Click Yes to acknowledge that the Entrust IdentityGuard application is already downloaded and installed on your mobile device – **Note:** The soft token can only be installed on one single device.

Soft Token

Have you downloaded and installed the Entrust IdentityGuard Mobile OTP application onto your mobile device?

Not sure what to do?

Answer **Yes** if you've successfully downloaded and installed the Entrust IdentityGuard Mobile OTP application. After answering Yes, you will be prompted to set up a soft token.

Answer **No** if:

- You have **not** downloaded and installed the Entrust IdentityGuard Mobile OTP application yet.
- You don't have a mobile device that can support the application.
- Your attempts to download and install the Entrust IdentityGuard Mobile OTP application have repeatedly failed.
- You are unclear about what to do.

For manual activation on your mobile device, please refer to the [Manual Activation](#) section below (step # 20.)

9. Select the first option, *I want to activate a soft token identity on a mobile device*, and click Next.

Entrust IdentityGuard Mobile OTP Activation Options

Please select the option that best matches your current situation:

1. ☐ I want to activate a soft token identity on a mobile device that may not be connected to the Internet.
2. ☒ I am unable to activate my soft token identity using the above method, so I'll perform a manual activation.
3. ☐ I want to delay activating my soft token identity until later.

Option 2

Manual activation is necessary when you don't have the required version of Entrust IdentityGuard Mobile OTP.

10. A QR code will now appear on your computer screen

Entrust IdentityGuard Mobile OTP Identity

Activate your new soft token identity using the method outlined below, or select **Cancel** to choose a different activation method.

QR Code Activation

To activate a soft token identity on a mobile device, use the Entrust IdentityGuard Mobile OTP app on that device to scan the QR code below. If you're already on the mobile device where you want your soft token identity activated, save the password displayed below using your browser's copy capability and simply touch the QR code.

71503229

To complete activation, you must provide Entrust IdentityGuard Mobile OTP with the password displayed above.

Once you have saved your soft token identity, return here and click **Next**.

[Next](#) [Cancel](#)

Not sure what to do?

For QR code activation:

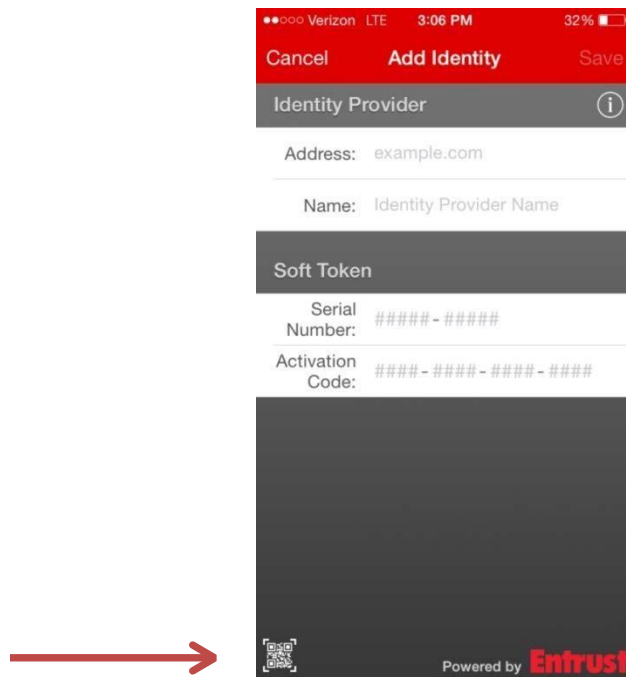

- On your mobile device, open Entrust IdentityGuard Mobile OTP. Enter your PIN if prompted.
- Navigate to the Identities screen and press the QR code icon or select **Scan QR code** from the menu. Follow the instructions on the QR Scanner screen.
- To complete activation, enter the QR code password displayed above.
- Alternatively, if you are activating a soft token on your current mobile device, copy the password displayed above, tap the QR code image, enter your PIN if required, then when prompted, paste the password you previously copied.
- Select **Save** or **Activate** as appropriate, then return to this page and click **Next**.
- If the application does not open, return to this page and click **Cancel** to get other activation options.

Part 2:

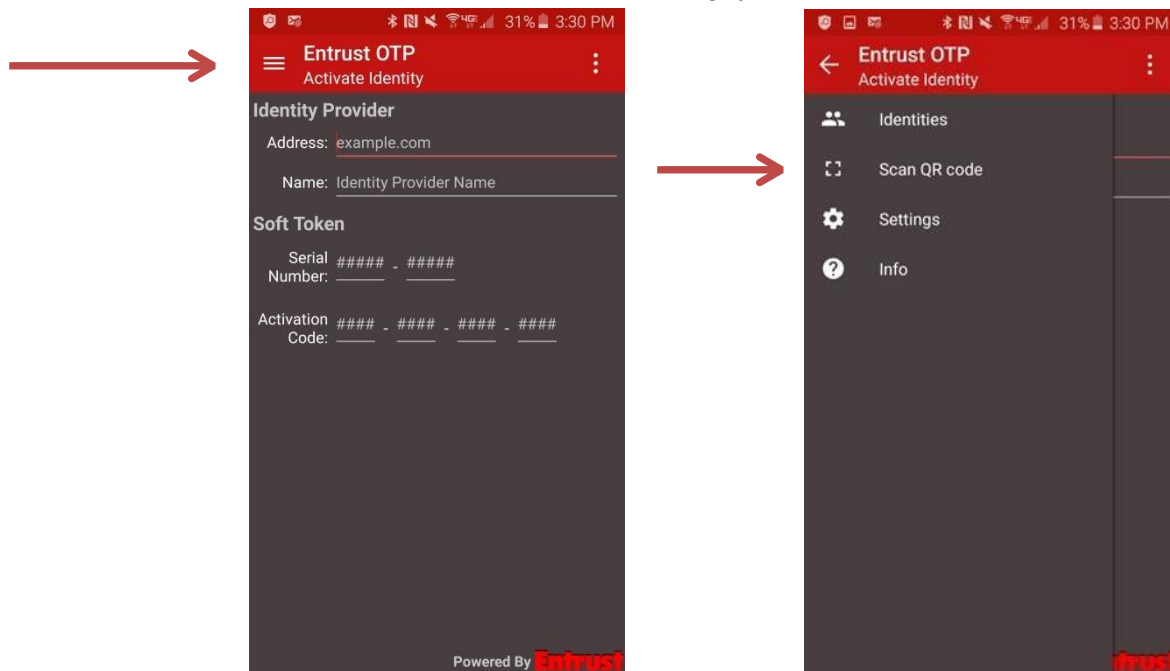

On your mobile device:

11. Launch the Entrust IdentityGuard app and utilize the QR scan feature:

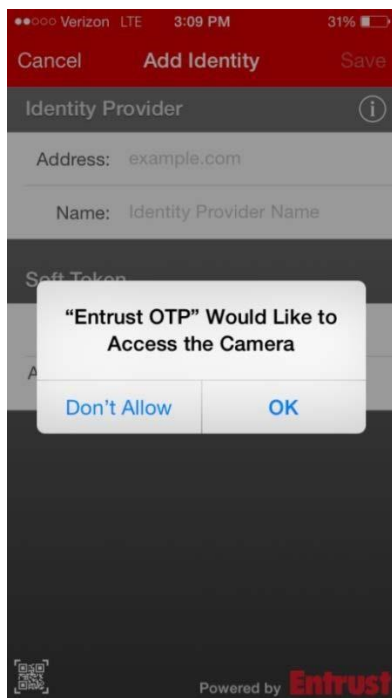

iPhone: Click the QR scan icon at the bottom-left corner.

Android: Click the three-line navigation icon at the top-left and then select *Scan QR code* from the pop-out menu

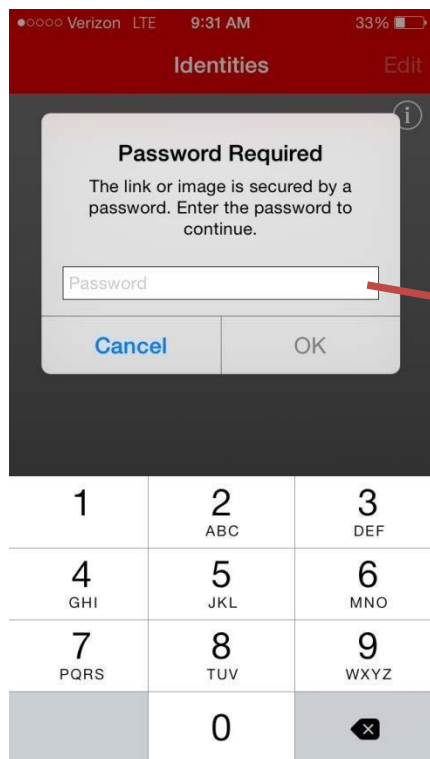

12. Click OK to allow the application to access your camera, if prompted.

13. Point your phone camera towards the QR code on your computer screen – the red box on your phone will turn green when it recognizes the QR code in view

14. Enter the 8 digit password that appears on your computer screen beneath the scannable QR code

15. Enter **Virtua** as the Identity Provider Name, then press Activate.

16. You will then be asked to create and confirm a 4 digit pin number – **This pin will be required every time you use the application**

17. A registration code will now appear on your mobile device – **do not click OK yet.**

18. **On your computer:** Click Next to progress past the QR code screen, and enter the registration code that appears on your mobile device.

Entrust IdentityGuard Mobile OTP or Desktop Soft Token Registration Code

Complete the activation of your soft token by entering the registration code displayed by the application.

* Registration Code:

Not sure what to do?

- If the soft token activation information is still being processed, please wait.
- If you don't know what your registration code is, click **Cancel**.

19. ***You have successfully completed the Virtua Entrust IdentityGuard dual authentication enrollment process!***

✓ The registration code you provided has been accepted and your soft token activated.

New Soft Token Creation

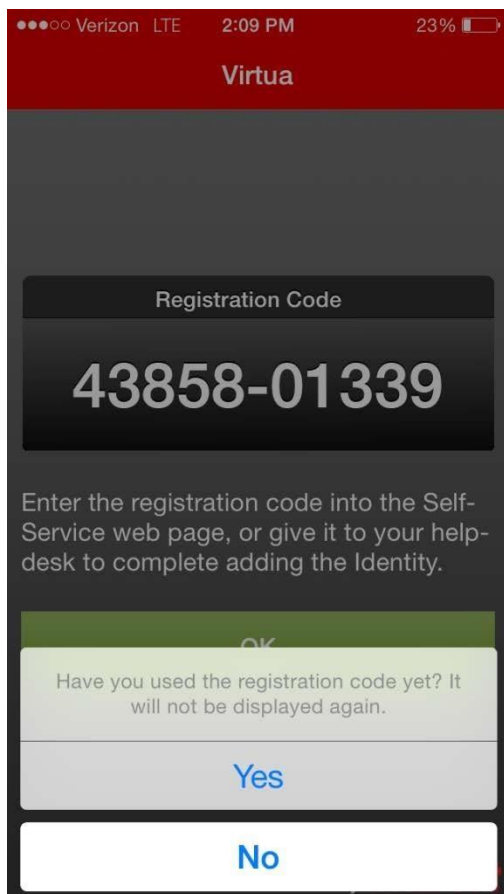

Your request for a new soft token to be used for second-factor authentication was successful.

You have successfully activated the soft token with serial number 36290-37445. You can start using this soft token for second-factor authentication right away!
